OBJECTIVE

Computer Engineer focused on software development with a commitment to continuous learning. Seeking opportunities to contribute my skills and expertise to innovative projects in the tech industry.

EDUCATION

- **Hashemite University**, Jordan/Zarqa, Master Degree, Software Engineering (Mar 2025 - Present).
- **Abdul Aziz Al Ghurair School of Advanced Computing**, Jordan/Amman, Certificate, Full Stack Software Developer (Jun 2021 - Jan 2022).
- **Albalqa Applied University**, Jordan/Amman, Bachelor's Degree of Computer Engineering (Sep 2016 - Mar 2021).

EXPERIENCE

- Full Stack Software Developer at Luminus Technology University College, (Mar 2022- Mar 2024).
 - Developed a user-friendly content management system, enabling non-technical users to update website content.
 - Worked with designers and product managers to build high-quality software solutions.
 - Led project meetings to gather and refine requirements, ensuring clear communication of project scope and timelines.
 - technologies used: Python, Django, PostgreSQL, AWS

PROJECTS

Heba Smartphones, (Jul 2024 - Oct 2024).

- Designed a Mobile App for selling smartphones and accessories. At 'We Bridge,' we match you with the perfect smartphone tailored to your needs.
- Built with: [Figma](#).

ASAC Website, (Jan 2024 - Mar 2024) - [github](#).

- Created an informative website for the ASAC department, leading to an increase in student inquiries. The website gave clearer details about the department's programs, which helped attract more applicants.
- Built with: HTML5, CSS, Javascript, Bootstrap.

LTUC Website, (Mar 2022 - Jul 2023) - [Figma](#).

- Developed a college website for LTUC to provide essential information for students, job seekers, and talented individuals.
- Included a user-friendly content management area, enabling content writers to easily create, update, and manage pages.
- Built with: Wagtail CMS, CSS, Javascript, Postgresql, Figma.
- Deployed on: AWS (EC2 service).

TradeWheels, (Nov 2022 - Feb 2023) - [github](#)

- Developed a car marketplace platform with user authentication and interactive listings.
- Implemented advanced filtering and email communication features.
- Built with: Django, Bootstrap, Postgresql.

TECHNICAL SKILLS

Programming Languages: HTML5, CSS, JavaScript, Python.

Frameworks/Libraries: React, Next.js, Tailwind, Bootstrap, Node.js, Express.js, Django, Django REST framework, Wagtail CMS.

Databases: MongoDB, PostgreSQL, Oracle.

Version Control: Git, GitHub

Development Tools: VSCode, Ubuntu, Eclipse

Deployment: Docker, Heroku, Netlify, Vercel

SOFT SKILLS

- Problem Solving and critical thinking.
- Effective Communication.
- Active Listening.
- Fast learner.
- Attention to detail.
- Team Collaboration: Collaborative team player with a strong ability to work effectively in a team environment.
